Thermoplastics

De Monchy International

De Monchy International has an experienced Inks team which is responsible for the distribution of raw materials with a high added value. Our many years of expertise in logistics enable us to supply our customers across Europe on time, in full.

Your partner for technical support

Our technical background and experience enable us to advise customers about compounding issues. We also respond promptly to government regulations. The markets we serve include: Automotive, Agriculture, Consumer Goods, Electrical & Electronic, Medical, Packaging, Building & Construction, Wire & Cable, Lighting, Sport & Leisure, Appliances and Transport. Is your market or materials requirement not listed here? Then do contact us. Together with our partners we can provide a solution for your product or process needs.

Market Advice

We analyse the market together with renowned producers. This enables us to advise on developments and trends in the market. Biobased and renewable raw materials are good examples of this. We also work with independent development laboratories and centres of expertise.

Waxes

De Monchy International

De Monchy International has an experienced Inks team which is responsible for the distribution of raw materials with a high added value. Our many years of expertise in logistics enable us to supply our customers across Europe on time, in full.

Your partner for technical support

By working closely together with our suppliers we can offer you a tailor-made solution in terms of quality, continuity and innovation. The demand for new and renewable (sustainable) raw materials is an important consideration when selecting waxes. This is one of the reasons why our portfolio is broad and tailored to your requirements.

Market Advice

We analyse the market together with renowned producers. This enables us to advise on developments and trends in the market. Biobased and renewable raw materials are good examples of this. We also work with independent development laboratories and centres of expertise.

Adhesives

De Monchy International

De Monchy International has an experienced Inks team which is responsible for the distribution of raw materials with a high added value. Our many years of expertise in logistics enable us to supply our customers across Europe on time, in full.

Your partner for technical support

Our technical background and experience enable us to advise customers about compounding issues. We also respond promptly to government regulations. You will not only receive advice about the choice of product, but also on processing it. This enables you to manufacture your products more sustainably and at a lower price, and deliver a better end product.

Market Advice

We analyse the market together with renowned producers. This enables us to advise on developments and trends in the market. Biobased and renewable raw materials are good examples of this. We also work with independent development laboratories and centres of expertise.
